SUMMARY

Computer Science student at BINUS University specializing in Software Engineering. Builds full-stack web and mobile applications with React, TypeScript, Next.js, and Supabase. Lead developer of UniCon, full-stack engineer on the Indosmile Dental Care system, and accepted candidate of Apple Developer Academy @BINUS.

EDUCATION

Bina Nusantara University (BINUS) | 2024 – 2028

B.Sc. Computer Science, School of Computer Science

EXPERIENCE

UniCon – College Social Networking Platform | Lead Student Developer | Oct 2026 – Present

- Lead the development of a social networking platform for university students using React, TypeScript, Vite, and Supabase.
- Built secure login and registration with Supabase Auth and managed relational data in PostgreSQL.

Indosmile Dental Care – Patient & Internal Management System | Full-Stack Web & Mobile Engineer | Sep 2026 – Present

- Develop a patient and internal management system across web and mobile platforms, covering UI, backend, and data storage.

PROJECTS

Personal Web Application Project | Next.js, Supabase, PostgreSQL

- Built a full-stack web app with responsive UI (semantic HTML, custom CSS) and Supabase backend.
- Implemented user authentication (login and registration) with Supabase Auth.

Cross-Platform Mobile App (Solo Project, 2026) | iOS & Android

- Developed solo from concept to UI/UX design and backend setup, targeting both iOS and Android.

ACHIEVEMENTS

- **Apple Developer Academy @BINUS – Accepted Candidate (2026)**
Passed a competitive multi-stage selection among thousands of applicants.

SKILLS

Programming Languages: TypeScript, Python, C, C++ (basic), JavaScript, SQL (basic)

Frontend: React, Next.js, HTML, CSS, Tailwind CSS

Backend & Database: Node.js, Supabase, PostgreSQL, MySQL

Cloud & Tools: Google Cloud Platform, Kubernetes (basic), Netlify, Git, GitHub

Languages (spoken): Indonesian, English (B2.2), Dutch (basic)
